Professional Summary

- Senior Frontend Engineer with 6+ years of experience building high-performance, accessible user interfaces with React.js and TypeScript, and turning product and design requirements into production-ready components across fintech and enterprise platforms.
- Worked closely with product owners and engineering teams at PayPal and HCL to guide UI decisions, taking ownership of architecture and code quality while mentoring contract developers, interns and junior engineers.
- Built reusable design-system components and a micro-frontend architecture with Module Federation, used by seven to eight product teams, and improved load time by 52 percent through code splitting, lazy loading and bundle optimization. Tested this work with React Testing Library, Cypress and TDD in CI/CD pipelines (Harness, Jira).

Work Experience

Software Engineer 2 | PayPal, Chennai, India

Jun 2024 – Aug 2025

- Led the migration of a core platform module from Dust.js to React, managing a 3-person team of contract developers and interns and taking ownership of all code reviews and architecture decisions.
- Built federated frontend modules with Webpack 5 Module Federation, later used by 7-8 teams to share components across projects.
- Reduced page load time by 52% (6s → 2.9s) by improving the webpack configuration, adding code splitting and lazy loading, checking bundle size with webpack-bundle-analyzer, and switching Lodash imports to function-level imports.
- Managed the full release process, including manifest creation, OBT, production deployment and monitoring after release.
- Connected REST APIs and set up Adobe Analytics tracking for user behavior data, along with unit and functional testing.

Tech Stack: React.js, TypeScript, JavaScript (ES6+), Redux, Webpack 5, Module Federation, REST API Integration, Adobe Analytics, Jest, Cypress, Playwright, React Testing Library, Git, Jira, Figma, Harness · CI/CD Pipelines

Senior Software Engineer | HCL Tech, Chennai, India

Dec 2021 – May 2024

- Led a small team of junior developers, responsible for code review standards and technical direction.
- Delivered UI features, bug fixes and improvements for the Verizon account, including Adobe Analytics tracking.
- Reduced bundle size through refactoring and performance improvements, backed by unit tests to maintain quality.

Tech Stack: React.js, Redux, JavaScript, Material UI, REST API Integration, Adobe Analytics, Jest, Enzyme, Git, Jira, Figma

Program Analyst | Cognizant, Chennai, India

Jun 2019 – Nov 2021

- Transformed business requirements and wireframes into interactive, responsive frontend applications for the Macy's and KFC engagements.
- Wrote frontend components and unit tests with close attention to functionality and reliability on mobile and tablet.
- Worked in short cycles using version control and Agile practices in a fast-paced environment.
- Worked with cross-functional teams on API contracts and integration, and took part in sprint planning and daily standups to keep frontend work aligned with backend services.

Tech Stack: React.js, Redux, TypeScript, HTML5, CSS3, REST API Integration, Git, Jira, Figma, Agile/Scrum

Technical Skills

Frontend : React.js · Redux · JavaScript (ES6+) · TypeScript · HTML5 · CSS3 · Bootstrap · Material UI · Accessibility

Architecture : Module Federation · Micro-Frontend Architecture · Single-Page Applications (SPA) · Component Libraries · Design Systems

UX Collaboration : Figma (Daily Use – Design Specs & Implementation)

Testing : Enzyme · React Testing Library · Jest · Cypress · Playwright · TDD

APIs & Libraries : REST API Integration · Axios · Node.js (Backend for Frontend) · Adobe Analytics

Tools & DevOps : Git · Jira · Postman · Visual Studio Code · Datadog · Jenkins · Harness · CI/CD Pipelines · Vite · Webpack

AI & LLMs : GitHub Copilot · Cursor AI · ChatGPT · Claude · LLM Integration · AI-assisted Development

Education

B.Eng. (Bachelor of Engineering)

Aug 2015 – Apr 2019

Electronics & Instrumentation Engineering

Anna University, Chennai, India

Awards & Recognition

- "UI Champion Award" - HCL Tech - For exceptional ownership, driving the UI project through all phases, and delivering on time with high-quality results
- "You Nailed It Award" - PayPal - For outstanding teamwork and consistently delivering high-quality solutions
